

PORTFOLIO

MANISH ACHARYA

BIM ARCHITECT

PROFILE

About

A dedicated and technically proficient architect graduate from the Institute of Engineering (IOE), Pulchowk Campus, with a robust foundation in BIM workflow and creative design skills.

Over a year of professional experience designing and analyzing residential and industrial projects using NBC and IRC codes, complemented by hands-on expertise in Revit-based BIM workflows, AutoCAD, and SketchUp. Passionate about advancing research in BIM workflow in construction.

EDUCATION

Bachelor in Architecture

IOE, Pulchowk Engineering Campus

2019 – 2025

RESEARCH INTEREST

AI in the construction industry; implementation of BIM in construction

CAREER

Experience & Tools

- 2026 FEB — PRESENT
BIM Architect
Equagen Architect
- 2025 MAY — 2026 FEB
Junior Architect
Aaramv Studios Pvt. Ltd.
- 2024 APR — 2024 NOV
Intern Architect
Dream Developers

SOFTWARE

Revit

Navisworks

AutoCAD

SketchUp

Lumion

D5 Render

Photoshop

Python

ArcGIS

Professional experience in residential
and industrial BIM workflows

Residence

LOT 3, Barbee Rd, Morrisville, NC 27560

One of four lots

A spacious two-story contemporary residence featuring a steep gabled roof, wraparound covered porches, exposed timber trusses, brick-and-siding exterior, large windows, and an integrated two-car garage — blending traditional architectural character with modern living.

Residential

Two-Story

Revit BIM

Elevations & Views

SOUTH & NORTH ELEVATIONS

ISOMETRIC VIEWS

Structure & Framing

BUILDING SECTION & FLOOR-FRAMING ISOMETRICS

The architectural model was linked to the structural Revit file to coordinate framing, walls, and foundations in real time — reducing clashes before construction documentation.
